THANKS.—The fair editors of the Festive Wreath have our grateful thanks for their beau-ful present of a gold pen. We shall cherish the kindness which prompted the gift as among the sunny spots of our existence. We can only offer our pledge that the pen shall always be used in defence of innocence, purity and

We are also requested by the employees in the Union office to return their especial obligations for one of the finest apcimens of a cake that they were ever called upon to devour!

We hope to see a general attendance at the abundantly of the good things of the table.

To those of Ashland, we accrowded into the Town Hall—and every one who would wish to spend an hour or two in rational social enjoyment, and at the same time contribute something towards a Christian and praise worthy object, should attend.

THE ATLANTIC MONTHLY .- This able Magazine, by Phillips, Sampson & Company, Response by Mr. Robison. Boston, is rapidly growing in popular favor, and is destined to outstrip HARPER, and the whole race of flashy cotemporaries of that stamp. The January number contains 186 pages from the ablest minds of the country. No one can invest three dollars in more profit able Magazine reading than by sending for the Atlantic Monthly for 1859—the January number of which is upon our table. Ten copies for Five Dollars. Subscriptions received at the Post Office, and copies for sale at the Book Store of Mesers. POTTER & KNOX.

THE GENESEE FARMER,-The January number of this old journal, which has always enjoyed a wide popularity among the most intelligent Farmers in the country, is upon our table. It is published, as most of our readers know, monthly, by JOSEPH HARRIS, Rochester, N. Y., at 50 cents per annum. Subscriptions received at the Post Office. Subscribers to the Ashland Union can have the Farmer for

IMPORTANT TO CONSUMPTIVES! DR. CHURCHILL'S DISCOVERE THE HYPOPHOSPHITES OF

THIS new and important Discovery in the trees ment of Tuberculosis, (Consumption,) was made by the celebrated Dr. John Francis Churchill of Paris, and first communicated to the French Academy of Medicine in 1856. It has been adopted and in accused throughout the Continent of Europe with unpercedented success us a cure and preventive at this most formidable scourge of the Human Race. The Hypophosphites are recommended by the most end nent Physicians of N. Y., who prescribe for it that patients. So long ago as 1855, Dr. Churchill, by series of scientific deductions came to the conclusion that the proximate cause, or at all evants, an execution

that the proximate cause, or at all events, an easentla condition of Tuberculosis, (Consumptions) was a decrease in the system of the phosphorus it contains is a oxygenizable state. Hence he drew the obvious inference, that the means of curing the disease consisted in restoring the deficient elements.

For this purpose, it was necessary to select some compound of phosphorus which should be at the same time exydizable and assimilable—that is, capable of entering into and forming a part of the system. These conditions were found to exist in the Hypophosphites of Lime, Soda and Potash, which seemed best to fulfil the two requisites of exydation, or combustion, and assimilation. Theuse of the Hypophosphites shows these preparations to have a two fold specific action. On the one hand they increase the principle, whatever that may be, which constitutes nervous force; and on the other they are the most powerful blood generating agents, far superior to any hitherto known.

powerful blood generating agents, far superior to any hitherto known.

The Physiological effects of their use are shown by an increase of nervous power, sometimes even from the first day of their administration, together with an unusual feeling of comfort and atrength. The appetite increases often in an extraordinary manner. The evacuations become regular and more abundant; the prespirations; if any have existed, cease; alcep becomes calm and profound. All the general symptoms disappear with a rapidity that is truly marvelous. The Hypophosphites, as prescribed by Dr. Churchill, are now for the first time offered in a chemically pure form in the United States by the undersigned.

Price \$2 per bottle, in a concentrated from, by mall. These bottles will be sent for \$5,00 when ordered by Express.
